

**VACANCY: promoter- in-residence (training programme)**

**OPEN CALL: Hamburger Community of LIVE 2020**

Roodkapje invites pioneers for its Hamburger Community of LIVE (HCL). For 2020 we're looking for three people for a year long promoter-in-residence programme at Roodkapje, a multidisciplinary platform for presentation, talent support and development.

The HCL offers the ultimate opportunity to take a look behind the scenes of a professional arts organization while you get a chance to develop your own vision on curating Live events. With your fellow promoters and Roodkapje staff, volunteers and artists, you form a community that offers guidance and support to experiment with Live events in music, art, film and performance. Next to guidance by internal and external professionals, we offer you a free workspace, expansion of your network & a monthly compensation for your professional costs.

The HCL is founded because Roodkapje noticed a growing interest from our current promoters in each other's programme. Mutually, Roodkapje's audience seems more and more interested in the variety of programmatic elements that we offer. That's why we are looking for promoters who offer new skills, art forms, visions and perspectives on Live programming.
